TIP-BASED
PROTOCOLS

Our complete line of accessories helps you set up your protocol quickly.

A variety of tube racks, plates, blocks, pipetting heads, tips, and tip accessories make PIPETMAX® completely customizable to your application.

PIPETMAX Pipette Heads

MAX8X20

The MAX8X20 is an 8-channel head for pipetting between 1 µL and 20 µL. **Part Number: FC10022**

MAX8X200

The MAX8X200 is an 8-channel pipette for pipetting between 20 µL and 200 µL. **Part Number: FC10021**

MAX1000

The MAX1000 is a single channel head for pipetting between 100 µL and 1000 µL. **Coming Soon!**

Tube Racks

Rack 424 holds 12 flip cap tubes. This rack works with most 1.5 mL and 2.0 mL microcentrifuge tubes. **Part Number: 32000198**

Rack 425 holds 24 screw cap tubes. This rack works with most 1.5 mL and 2.0 mL microcentrifuge tubes. **Part Number: 32000197**

Rack 496 holds 96 PCR tubes. **Part Number: 32000196**

Tip Accessories

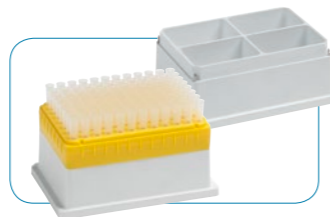

On-bed Tip Bin

The on-bed tip bin sits on PIPETMAX's removable tray, holding 200 to 300 tips per bin. **Part Number: 32000274**

Tip Storage Riser

The tip storage riser allows PIPETMAX to eject tips into a large tip bin below the instrument (included), holding over 2000 tips. **Part Number: 32000177**

Tip Adapter Block

The tip adapter block is required for each position that will hold tips on PIPETMAX. **Part Number: 32000175**

Freezer Blocks

Rack 410 PT is a freezer block for flat-bottom microplates. **Part Number: 32000233**

Rack 424 PT is a freezer block that holds 12 flip cap tubes. This rack works with most 1.5 mL and 2.0 mL microcentrifuge tubes. **Part Number: 32000232**

Rack 425 PT is a freezer block that holds 24 screw cap tubes for use on PIPETMAX. This rack works with most 1.5 mL and 2.0 mL microcentrifuge tubes. **Part Number: 32000200**

Rack 496 PT is a freezer block that holds 96 PCR tubes. **Part Number: 32000238**

On-Bed Devices

Circulating Temperature Block and Adapters

410 CT Base Circulating Block

The base circulating block allows for precise temperature control of flat SLAS/ANSI footprint microplates using a separate circulating temperature

control unit (not included). Adapters (sold separately) allow this same block to be used with various types of tubes. The installation kit and tubing for this rack are sold separately.

Part Number: 32000208

Adapter 424 CT

Adapter 424 CT allows 12 of most 1.5 mL and 2.0 mL flip cap tubes to be used with the 410 CT base circulating block.

Part Number: 32000262

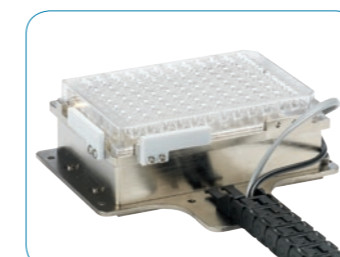

Adapter 425 CT

Adapter 425 CT allows 24 of most 1.5 mL and 2.0 mL screw cap tubes to be used with the 410 CT base circulating block.

Part Number: 32000261

Adapter 496 CT

Adapter 496 CT allows 96 PCR tubes to be used with the 410 CT base circulating block. **Part Number: 32000260**

Orbital Shaker

The orbital shaker allows shaking between 60 and 3560 RPM for SLAS/ANSI microplate footprint labware. **Part Number: 32000199**

Custom Accessories

Gilson is proud to support its community of PIPETMAX users with custom accessories. If for any reason the standard accessories don't meet your needs e-mail techsupport@gilson.com or speak to your local Gilson representative for more information on the Gilson Specials program.

Tubing Kit

The tubing kit provides shielded tubing for the 410 CT Base Circulating Block. **Part Number: 32000289**

Installation Kit

The installation kit allows the 410 CT Base Circulating Block to be securely mounted to the PIPETMAX tray. This kit is required for each 410 CT Base Circulating Block. **Part Number: 32000193**

On-bed Device Cable Guide

The On-Bed Device Cable Guide allows tubes and cables from the shaker and circulating temperature blocks to safely exit the instrument. One On-Bed Device Cable Guide can support up to two devices and is required for any PIPETMAX using these devices. **Part Number: 32000247**

PIPETMAX® Order Reference

PIPETMAX® Base Units	Part Number:
Standard Cover	32100000
Cover with Cut-outs	32100001
External Safety Interlock	32100002
qPCR Assistant Kit	32000301
Normalization Assistant License	
Lifetime License	32000318
One Year License	32000319

PIPETMAN tips are universal for our manual pipettes and PIPETMAX!

The BLISTER REFILL

The new BLISTER REFILL packaging is specially designed to be cost-effective and environmentally friendly, while maintaining high quality standards.

- More convenient: just open the lid and pick up the rack.
- More environmentally-friendly: uses less plastic and fits in reusable adapter block.
- Use the same tips for PIPETMAX and manual pipettes.

BLISTER REFILLS are available to cover volume ranges from 1 to 1000 μL in standard, sterilized and sterilized filtered tips.

Tips validated for use with 384 well plates are also available.

Tip Specifications

Type	Autoclavable	Sterilized	Description	Volume Range	Tip Length	Features
DIAMOND BLISTER PACKS FILTER	-	F172203	DFL10ST Filter BLISTER REFILL Pack (960 tips)	0.1 - 10 μL	45 mm	Extended Length; Graduations at 2 and 10 μL
	-	F172213	DSFL10ST 384-Certified Filter BLISTER REFILL Pack (960 tips)	0.1 - 10 μL	45 mm	Extended Length; Straight; Graduations at 2 and 10 μL
	-	F172303	DF30ST Filter BLISTER REFILL Pack (960 tips)	2 - 30 μL	51 mm	-
	-	F172313	DSF30ST 384-Certified Filter BLISTER REFILL Pack (960 tips)	2 - 30 μL	51 mm	Straight, Filter
	-	F172403	DF100ST Filter BLISTER REFILL Pack (960 tips)	20 - 100 μL	51 mm	-
	-	F172413	DSF100ST 384-Certified Filter BLISTER REFILL Pack (960 tips)	20 - 100 μL	51 mm	-
	-	F172503	DF200ST Filter BLISTER REFILL Pack (960 tips)	20 - 200 μL	51 mm	Graduations at 20 and 100 μL
	-	F172513	DSF200ST 384-Certified Filter BLISTER REFILL Pack (960 tips)	20 - 200 μL	51 mm	Straight Filter; Graduations at 20 and 100 μL
	-	F172703	DF300ST Filter BLISTER REFILL Pack (960 tips)	20 - 300 μL	51 mm	-
	-	F172603	DF1000ST Filter BLISTER REFILL Pack (960 tips)	100 - 1000 μL	66 mm	-
	-	F172613	DSF1000ST 384-Certified Filter BLISTER REFILL Pack (960 tips)	100 - 1000 μL	66 mm	Straight Filter
DIAMOND BLISTER PACKS STANDARD	F172200	F172201	DL10 BLISTER REFILL Pack (960 tips)	0.1 - 20 μL	45 mm	Extended Length; Graduations at 2 and 10 μL
	F172210	F172211	DSL10 384-Certified BLISTER REFILL Pack (960 tips)	0.1 - 20 μL	45 mm	Extended Length; Straight; Graduations at 2 and 10 μL
	F172300	F172301	D200 BLISTER REFILL Pack (960 tips)	2 - 200 μL	51 mm	Graduations at 20 and 100 μL
	F172310	F172311	DS200 384-Certified BLISTER REFILL Pack (960 tips)	2 - 200 μL	51 mm	Straight; Graduations at 20 and 100 μL
	F172400	F172401	D300 BLISTER REFILL Pack (960 tips)	20 - 300 μL	51 mm	-
	F172500	F172501	D1000 BLISTER REFILL Pack (960 tips)	100 - 1000 μL	66 mm	-
	F172510	F172511	DS1000 384-Certified BLISTER REFILL Pack (960 tips)	100 - 1000 μL	66 mm	Straight
