

## INSTRUMENT

### TAC-500 AS

**FAST TRACK RATE** for a good measurement accuracy even at lower phi factors

**LOW ONSET TEMPERATURE** detection threshold

**PRACTICAL BENCH TOP INSTRUMENT** with a compact design for lab space saving and easier maintenance

**CONVENIENT TO USE** with good usage to maintenance time ratio

**ACCESSIBLY PRICED** instrument and replacement parts

## SPECIFICATIONS

Temperature range (°C)	Room temperature to 500
Temperature increase detection Threshold (°C/min)	0.005 to 0.02
Temperature Precision (repeatability, °C)	+/- 0.05
Modes	Heat-Wait-Search, Isothermal, Temperature scanning
Pressure Range (bar)	0 to 200
Pressure Resolution (bar)	0.001
Pressure Accuracy (bar)	+/- 2
